Big Beats: A new kind of keyboard playalong from the creator of *Microjazz*

Stunning CD sounds

Learning the keyboard can be lonely. There are many playalong CDs for instrumentalists, but keyboard players rarely get the chance to join in. *Big Beats* solves the problem by providing easy solo keyboard pieces in pop styles with state-of-the-art CD accompaniments.

Pop styles: techno, funk, R'n'B and country

What's more, the *Big Beats* CD accompaniments aren't just ordinary backings. You can play *Big Beat* pieces "straight", or add the backing tracks to enter a stunning new world of sound. "The effect is one of immersion in a sound world that is greater than the sum of its parts", says composer Chris Norton "it is no longer simply a solo pianist and backing, but a dramatic blend of the two. Alternatively, playing whilst listening to the backing through headphones really enhances the sense of being right in the middle of the performance"

Fun and learning combined

And *Big Beats* pieces aren't just great fun, they help pianists learn too. Students will be practising keyboard technique – rhythm, co-ordination and listening, but they'll have so much fun, they won't know they're doing it!

Microjazz for the next generation

This winning combination of classical technique and pop styles isn't new. Chris Norton is also the creator of *Microjazz*. Originally published over 20 years ago *Microjazz* has become one of the most popular educational series ever published. Generations of students have learnt keyboard through *Microjazz's* jazz, blues and rock pieces. *Big Beats* continues the *Microjazz* formula using sounds and styles of today such as techno, R 'n' B, funk and country.

Experience the *Big Beats* sound. Listen to sound-clips on our website: www.boosey.com/

Big Beats pieces are available in three great-tasting flavours: Techno Treat, Country Comfort and Smooth Groove. Keyboard book & CD Price £7.99 Further information: Janella Sillito Tel: 020 7291 7153 e mail: marketing.uk@boosey.com
