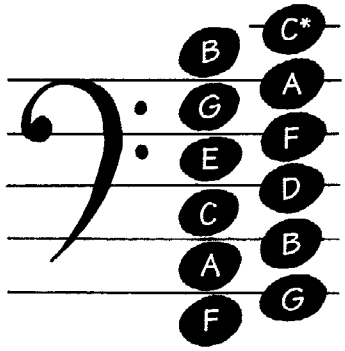
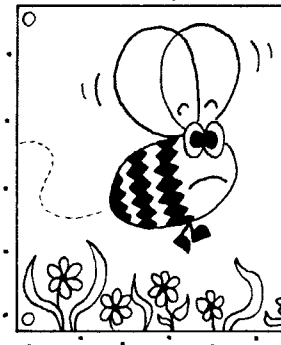
THE BASS CLEF

– The **bass clef** also tells you the pitch of notes on a stave and is found at the beginning of a line of music.
– It's known as the **F clef**, because the dots go either side of the F line. This picture shows all the note names on this stave.
– The bass clef is used for lower notes, so you would see it in music for instruments like the double bass, tuba or bottom half of the piano keyboard.

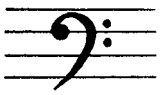


* Also known as middle C.

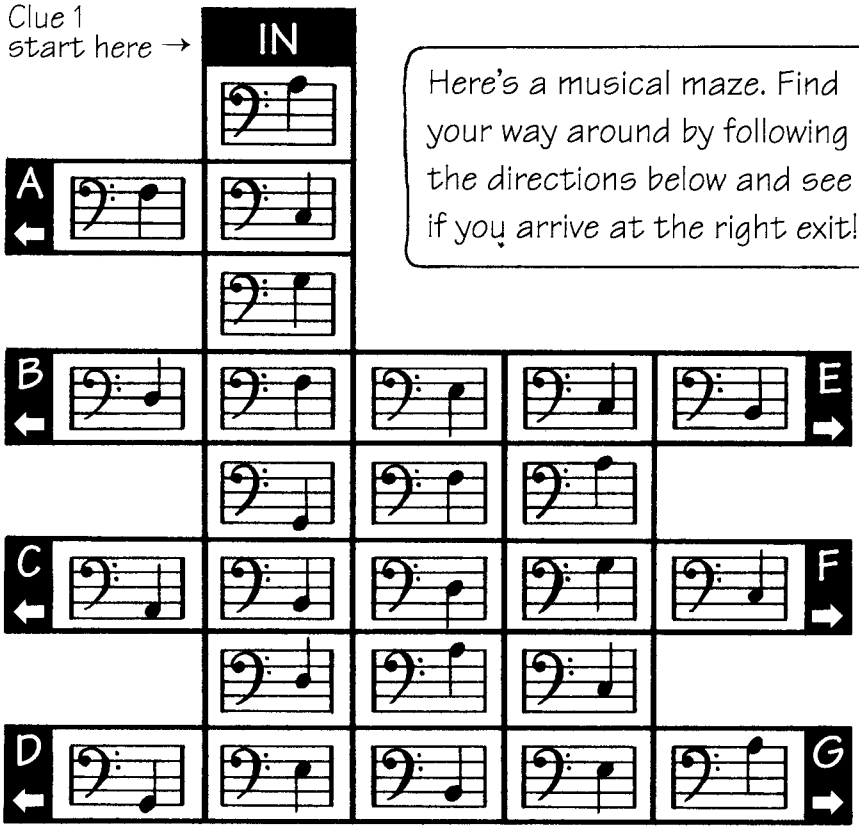


If there's a G clef and an F clef, I think there should be a bee clef, too!

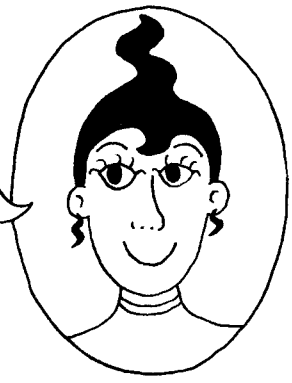
Copy this bass clef:



Clue 1
start here →



Here's a musical maze. Find your way around by following the directions below and see if you arrive at the right exit!



1. ↓ until you reach an F
2. → until you reach a C
3. ↓ until you reach an A
4. ← until you reach a G
5. ↓ until you reach an E
6. → until you reach a B
7. ↑ until you reach a D
8. ← until you reach an A

Answer = Exit .....
