I feel terrible! I've eaten something from this book of famous composers which has disagreed with me. I've made a list of all the ones I read about – can you find them in the grid below? Their names are hidden forwards, backwards, up, down and diagonally, so keep your eyes open! When you've crossed off all the words, read the letters left over from left to right to spell out the name of the composer that made me feel ill, and also the title of some of his most famous pieces.
